COMPUTER SCIENCE | PHYSICS

OBJECTIVE

Turn in an assignment with a working download button – should download a specified file.

SKILLS

I'm good at... baking. If you'd like to hear about it, I made zucchini bread two weeks ago; it uses sugar, brown sugar, eggs, zucchini, flour, nutmeg, cinnamon, baking soda, salt, oil, and vanilla. It wasn't hard to make, necessarily, but it did take a minute; peeling a zucchini always takes a minute. The recipe I have says I should grate it, but zucchini bakes in such a way that it doesn't matter; it'll end up small and somewhat unnoticeable anyway. The main flavor in the bread comes from the nutmeg, vanilla, and cinnamon, not the zucchini, despite the name.

EXPERIENCE

NONE

I have done nothing.

I GUESS VOLUNTEER WORK COULD GO HERE

but this is not an actual résumé, because I don't feel comfortable turning that in with my assignment. Think about the size of the team you led, the number of projects you balanced, or the number of articles you wrote.

VOLUNTEER EXPERIENCE OR LEADERSHIP

I've put up my hair about four times in the course of this assignment, so that's nice, I guess. Sorry if you took the time to actually read this. I was going to submit a research essay I previously wrote instead, but that might have caused conflicts with whatever software checks for plagiarism; I submitted it on TurnItIn last semester, and I don't know how that might have affected it.
